Subject: Re: SEP 14

Dear Lizanne:

On May 1 I requested an update on SEP 14 project. Below is the response you provided a month ago. The Tribes are very concerned this project is not moving forward. We request a written update from Exponent detailing where they are on the Work Order and provide a revised schedule. Once that information is provided it may be useful for the SMT to convene a call to determine a path forward.

We look forward to moving this project forward.

Susan Hanson

Dear SMT,

The following provides an update on SEP 14. The project is somewhat behind schedule due to health related problems which Dominik Alexander and his family experienced over the winter. While Exponent remains the contractor, the Exponent project manager has been changed to Dr. David Hoel because Dominik recently has left Exponent. Dr. Hoel's CV is attached. To ensure project continuity and minimize inefficiencies, Dominik will remain active on the project as a subcontractor to Exponent. My understanding is that the State Registry data is now being organized and the Phase II studies will proceed when those data are in useable form. Will advise further progress as reported by Exponent.

Best,
Liz
